

Leonardo Colaço

Computer Engineer

Hi, I'm a Computer Engineering student with a proficiency in Python and Java, and great problem-solving skills. I am passionate about front-end development as it best shows my creative personality. I seek to be involved in the Software Development field where I can learn and deepen my knowledge on designing computer stuff, as well as work with other motivated individuals in the field.

Graphic Designer

FIFCJ – Fédération Internationale des Femmes des Carrières Juridiques

01/2016 - 01/2019

Maputo, Mozambique

Tasks

- I designed flyers for events the organization planned using photoshop.

SKILLS

Python

Java

Javascript

PHP

HTML & CSS

Adobe XD

Python Pygame

Python API

REACT

Node.js

C Language

Front-End Development

SQL

Web-Development

Video Editing

Photoshop

PERSONAL PROJECTS

Team Generator

- Used Python to develop a program that takes people's names to distribute them into teams then implemented it into a web app with javascript.

Alien Invasion

- Uses the Pygame Python library to make a game where the user controls a spaceship to shoot down enemies across a grid in space

Painting Program

- Uses the Pygame Python library to make a drawing program where the user uses the mouse to draw with different brush sizes and colors

Web-Development (01/2019 - Present)

Portfolio Website (2023 - Present)

- Made my own website where I display my projects and knowledge of skills in programming and web design.

LANGUAGES

Portuguese
